Correspondence with Mr. Harold Weisberg

Acting Assistant General Counsel - IR

Enclosed are a letter from Mr. Weisberg, a draft reply, and copies of the "Regulations for Reference Service on Warren Commission Items of Evidence." One of these copies has a note by Dr. Rahmer, the former Archivist, dated November 2, 1966; another, which we received from L as an exhibit to a draft affidavit in the Nichols case, appears to have something blocked out at the top of the first page; and the one marked "Exhibit E," which was filed as an exhibit to my affidavit in the first reply to Dr. Nichols' complaint, does not have paragraph 6 on the second page. You may wish to consider whether these copies could further complicate our relations with Mr. Weisberg.

JAMES B. RHOADS
Archivist of the United States
